Cybersecurity starts with password security

Keeper is the top-rated password manager for protecting you, your family and your business from password-related data breaches and cyberthreats.

Be the password superhero your family looks up to.

Your family's online privacy and legacy starts with password security.

Families Share Everything

Families share nearly everything - documents, photos, videos, website accounts, bank info, social media, security system codes and personal identification numbers. With Keeper, sharing passwords and personal information with family members is super easy and secure.

Cybercriminals target your family's personal information

Over 80% of all data breaches are caused by weak passwords, reused passwords and poor password security.

Protect and preserve your family legacy
